## Greetings from NSCC-Annapolis Valley Campus!

To help you get the year off to the right start, we'd like to let you know what supplies you should have on hand for the first day of classes.

### LEVEL III

Binders (4 or 5)

Looseleaf (we find that binders and looseleaf work better than notebooks, because you can insert class handouts in a binder)

Calculator

Earphones (can be purchased from a dollar store – plan to have a few on hand)

### LEVEL IV

Binders (enough for each course you are taking)

Looseleaf (we find that binders and looseleaf work better than notebooks, because you can insert class handouts in a binder)

Scientific Calculator

Graphing Calculator (OPTIONAL – there are class sets, but those who have the funds to purchase one are encouraged to do so. Please purchase Texas Instruments model TI-84 Plus)

Please note that most faculty will be accepting assignments electronically via your NSCC email, **SO YOU WILL NEED TO CHECK THAT ACCOUNT REGULARLY**.

If you have any questions, please contact me via by phone at 825-5461 or by email at [andria.hill-lehr@nsc.ca](mailto:andria.hill-lehr@nsc.ca) .

On behalf of the Adult Learning Program team at the Annapolis Valley Campus have a great summer. We look forward to seeing you in the fall!

Sincerely,

A handwritten signature in black ink that reads "Andria Hill-Lehr".

Andria Hill-Lehr, ALP Counsellor
